

## Parking at Midwest Volleyball Warehouse

**Warning:** If you are parked in any of the “Red” lined areas shown on the maps posted at the front door, you will either be ticketed or towed this weekend.

There are 450+ spots available around this building and the building which is under construction just to the SW of us. We are sorry but it is not possible for them to all be at our front door.

There is no parallel parking in any part of these lots. Parallel parking wastes lots of space. Please see the map on the reverse side of this, or the one posted in the lobby.

- Parking on any non paved surface will result in either a ticket from the City of Burnsville, or your car towed by the construction company.
- Parking is not permitted on Judicial Road. This is a city restriction. If you drive up over the curb and park on the right of way, the police will ticket you.
- Parking in front of the Loading dock area on the NE corner of the building is not permitted. We do occasionally have deliveries made on the weekends.
- You may park in the loading dock area on the WEST side of the building.
- You may not park in the areas in front of or to the side of the two garage doors located on the South side of the building. These two areas are accessed during the day on Saturday and Sunday.
- You may not park in any area that impedes the flow of traffic, regardless if it is posted or not. We simply cannot put out enough “No parking” signs to cover every little corner of an island. If there are no white lines, or you are on the end of an island, it is not a legal parking place.
- You may park all around the new building being constructed to the SW of us. There are over 175 spots around that building.
- You may not park in the vacant lot to the South of our building. This is the area where the construction company has its construction materials. It is a very muddy area when the temperature goes above 32, or the sun comes out.
- Boulder Way, the street in the town home development east of our building, is a private street and is posted as No Parking. They will tow violators.

Please abide by these parking rules and use common sense. If parking continues to be a problem the City of Burnsville will force us to take more drastic actions that will result in an increase in admission costs.

Thanks for your help.

Cars which are parked illegally  
or not in proper parking places  
will be towed to:

Allen's Towing  
7215 W 128th St  
Savage, MN 55378
